

14 September 2016

Night works, temporary power installation, Arncliffe

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The New M5 will duplicate the existing M5 corridor, doubling vehicle capacity and easing congestion between St Peters and Beverly Hills. It will include twin tunnels, an upgrade of the King Georges Road Interchange and a new interchange at St Peters. For more information, visit westconnex.com.au/NewM5.

Further to the notification on 20 July, work is underway to install underground power cabling from an existing substation on Bryant Street, Rockdale to the New M5 construction site at Kogarah Golf Course. A map showing the location of the work is provided overleaf.

From **19 September 2016**, cabling work will commence under Marsh Street between Flora Street and the New M5 Arncliffe construction site. This work will take around **four** days to complete, weather permitting.

To reduce impacts on road users and ensure the safety of workers, the work will be undertaken between **8.00 pm** and **5.00 am** from **Monday to Saturday**. No work will be carried out on Sundays or public holidays. Every effort will be made to minimise impacts associated with this work, including completing noisy work early in the night.

Work will involve installing conduits under Marsh Street.

Equipment used during this work will include excavators, directional drill, vacuum trucks, lighting towers, generators, temporary fencing and pumps.

A stop/go arrangement will be in place intermittently during this work on Marsh Street.

If you have any enquiries or complaints about this work, please call **1800 660 248** (24 hours) and ask to speak to a member of the New M5 community engagement team.

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.

Notification No. 144
