

13 September 2016

Investigation work – Munni Street drain near Euston Road, Alexandria

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

As part of the project, the New M5 will duplicate the existing M5 East corridor, doubling vehicle capacity and easing congestion between St Peters and Beverly Hills. It will include twin tunnels, an upgrade of King Georges Road Interchange and a new interchange at St Peters. For more information, visit westconnex.com.au/NewM5.

To support the St Peters Interchange, local streets around St Peters, Alexandria and Mascot will be upgraded as part of the project. These improvements include widening Euston Road between Campbell Road and Maddox Street. This will require the widening of the existing bridge on Euston Road over the Munni Street drain.

From **Monday 19 September 2016**, utility and geotechnical investigations will be undertaken on the western side of the existing Euston Road/Munni Street drain bridge. A map is provided overleaf showing the location of the work.

These investigations will take up to eight weeks to complete, weather permitting.

Work activities

The work will involve:

- installing concrete barriers, fencing and traffic management to establish a safe work area
- removing trees and vegetation
- excavating a trench using an excavator and vacuum truck to identify an existing underground power cable
- testing ground conditions by drilling small diameter holes to collect soil and rock samples.

Work hours

The work will generally take place between **7.00am and 6.00pm from Monday to Friday** and **8.00am to 1.00pm on Saturday**. There will be no work on Sundays or public holidays.

The installation and removal of concrete safety barriers will occur between **7.00pm and 5.00am from Monday 19 September** and is expected to take two nights to complete, weather permitting. This work is being undertaken at night under traffic management for the safety of workers, motorists, pedestrians and cyclists. Every effort will be made to keep noise to a minimum including completing noisy works early in the night where possible. No work will be carried out on Sundays or public holidays.

Traffic changes

The investigation work will involve some temporary changes to traffic and footpath conditions, including:

- removal of approximately 150 metres of street parking along both sides of Euston Road around the work area
- realignment of traffic
- reduced speed limits
- stop-go arrangements
- footpath closures and diversions.

Traffic control and signage will be in place to assist motorists, pedestrians and cyclists. Property access will be maintained throughout the work.

Work to widen Euston Road is scheduled to start in late 2016. During the widening work, parking spaces along one side of Euston Road will be removed and traffic changes will be in place.

If you have a question or complaint about this work, please call toll-free 1800 660 248 and ask to speak to a member of the New M5 community engagement team or email info@newm5.com.au.
