

WestConnex Delivery Authority is upgrading the King Georges Road / M5 interchange to reduce congestion and improve travel time reliability.

This interchange is a well known pinch point for motorists entering and exiting the M5 motorway. Construction will start in mid 2015 and the upgrade will be completed by 2017.

This upgrade is part of the 33 km WestConnex motorway linking Sydney's west and south-west with the city, airport and port.
